And best part... you and your guests will receive 10% off their selections when they shop during your party!

How it works:

1. Pick a date that works for you and your group for your Private Shopping Party, we typically do our parties after regular store hours or 6pm - 8pm and will have the store closed JUST for your party but depending on the size of your party we may be able to arrange special hours for you! Popular themes are either weekday nights for an after-work soiree, or weekend mornings for a brunch themed shopping party! Everyone does not need to arrive at once – guests can stagger throughout the event time, whenever is most convenient for them!
2. Reach out to all your friends, and make sure you have at least ten friends who want to come shopping with you – but the more the merrier!

3. We will provide friendly and helpful staff to help you and your guests shop during your event.
4. Anything you want to bring to share is up to you! (Wine, cheese, crackers, etc.)
5. Once your request is received (fill out the contact form with requested date), we will message you with more info and to confirm your requested date!
6. Once you have picked your date and time, make sure to promote, promote, promote your party! We suggest making email invites and/or a Facebook invite to make sure you spread the word far and wide and get as many attendees to your party as possible (the more that come, the more rewards for you)! Heart and Home Decor can help with ideas for and the design of a personalized invite for your party! Make sure to follow up with each guest personally via text or phone call to make sure they know how important their attendance is to you, and to confirm they will be coming!

You will have the entire store to yourselves to mingle and shop. Your party will be a fantastic girl's night out with sips, bites, and style! Rally your closest friends and let's have a party!
